Curriculum Details

Curriculum type : Local

Curriculum planning

Use a progressive constructivist learning approach with collaborative subject learning and projects implemented.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

We aim to foster children's habit of reading, sharing and expanding their imagination. We cultivate linguistic proficiency by providing opportunities for children to share, report, speak and recite. Furthermore, we encourage proactive learning, letting children explore multimedia learning resources under the guidance of teachers; arranging field trips to enrich their experience; developing multiple intelligences, to provide learning activities in academics, arts, creative and sports.

Assessment of children's learning experiences

To continuously observe a child's learning performance and growth at different stages, a monthly Learning Assessment Report, a Development Evaluation every half year, and an Annual Learning Portfolio will be created.
