Dear Parents,

K2 Parent-child Learning Day at Ocean Park

To enrich our children's learning experiences, the school has organized a K2 Parent-Child Learning Day at Ocean Park. During this visit, children and their parents will explore the park's spectacular aquariums and animal exhibits to observe a wide variety of marine life, including sharks and rays. They will also have the wonderful opportunity to see penguins, seals, giant pandas and Rhinopithecus roxellana up close. Through this interactive journey, children will learn about animal habitats, behaviors, and the importance of wildlife conservation and protecting our ecosystems.

Parents and children are encouraged to participate in the activities and complete the parent-child learning day activity book together to share and have in-depth discussions during animal-themed activities
